SUMMARY

About Me I am Lagnajita Das, a Bachelor of Computer Applications (BCA) student at Maulana Abul Kalam Azad University of Technology (MAKAUT) with a passion for software development, problem-solving, and continuous learning. I enjoy building practical applications and expanding my knowledge through hands-on programming projects. Academic Background - Bachelor of Computer Applications (BCA), MAKAUT - 1st Semester SGPA: 7.45 - 2nd Semester SGPA: 7.85 - 3rd Semester SGPA: 7.45 - Higher Secondary (Class XII): 73% Technical Skills - Programming Languages: Java, Python, C - Web Technologies: HTML - Database: SQL - Version Control: Git & GitHub Projects - Hello Kitty Calculator (Java Swing): A desktop calculator with a custom graphical user interface, image integration, and responsive event handling. - Guess Game: A Java-based game demonstrating object-oriented programming, logical thinking, and user interaction. I am a dedicated learner who enjoys exploring new technologies and developing software that is both functional and user-friendly. I believe in continuous improvement, teamwork, and writing clean, efficient code. My goal is to build impactful software solutions while growing as a professional software developer and contributing to innovative organizations.
